Mathematical Biosciences Institute

Visiting Lecturer Program

The MBI Visiting Lecturer Program sponsors visits of mathematical biologists to institutions that have large numbers of undergraduate students who are members of groups that are under-represented in the mathematical sciences community. In addition to delivering a lecture on mathematical biology that is accessible to an undergraduate audience, the lecturers will meet with individual students and with groups of interested faculty and students to further this purpose.

Visiting Lecturers

- Janet Best – Ohio State
- Emery Brown – MIT
- Erika Camacho – Arizona State
- Carlos Castillo-Chavez – Arizona State
- Ricardo Cortez – Tulane University
- Isabel Darcy – University of Iowa
- Lisette de Pillis – Harvey Mudd
- Lisa Fauci – Tulane University
- Marty Golubitsky – Ohio State
- Christine Heitsch – Georgia Tech
- Fern Hunt – Howard and NIST
- Trachette Jackson – University of Michigan
- James Keener – University of Utah
- Nancy Kopell – Boston University
- Reinhard Laubenbacher – University of Connecticut
- Jonathan Mattingly – Duke University
- Fabio Milner – Arizona State
- Asamoah Nkwanta – Morgan State
- Michael Reed – Duke University
- Miranda I. Teboh-Ewungkem – Lafayette College
- Talitha Washington – University of Evansville
- Abdul-Aziz Yakubu – Howard University
